This change application is to permanently move all 0.698 CFS / 505.21 acre-feet annually under Permit 87089 from the existing well to the new proposed well to be drilled. Both Permits 18091 and 24074 will remain certificated under the existing POD (existing well).

16. Miscellaneous remarks:

EP Minerals, LLC would like to drill the proposed well immediately to not slow down plant operations. A Temporary Change Application that is an identical copy of this permanent change application is being filed at the same time to allow immediate drilling of the proposed well. No domestic wells are located within 2,500 feet of the proposed new well location.
